

Part Data Sheet

Article number :	DLT333SC
Name :	DLT333® - spraycan 400 ml Food Grade Lubricant with PTFE

General description

The DLT-333® is a Food Industry approved Dry Lubricant (NSF H1) for MicroDry™ conveyor lubrication (slat or mat top conveyors and PET air conveyors) and chain lubrication.

Technical data :

Net weight :	0,5kg
Unit package :	Spraycan
Type of fluid :	Lubricant
Reservoir :	400 ml
Density :	0,86-0,9 kg/l
Viscosity :	31-33 cSt (viscosity range at 38°C-42°C)
Electrical supply :	NA
Air supply :	NA
Water supply :	NA
Discharge rate :	NA
Other :	Flash point: above 165°C Storage conditions: ventilated, out of direct sunlight, temp recommended < 40°C FDA approved More technical information can be found on our MSDS and TDS documents

Various :

Recommended Lubricant : DLT-333®
Recommended Cleaning Agent : CLA-252 or equivalent

CHP preserves her rights to modify the component or to remove it from her delivery-program; a minimum quantity of outdated versions will be kept on stock to secure servicing capabilities.
